INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1948-49 edition of the Charlotte City Directory.

Confidence in the continued growth of Charlotte's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Charlotte to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Charlotte Directory will fulfill its mission as a source of authentic information pertaining to the city.

Six Major Departments

The six major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 25 to 802, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Charlotte, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 1 to 208, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Charlotte. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a large commercial and industrial center like Charlotte, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1013 to 1087, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE POSTAL UNIT GUIDE, on pink paper, follows the Classified and is separately paged from 1 to 4. This section is reproduced verbatim from copy supplied by the postal authorities.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, follows the Postal Unit Guide and is separately paged from 5 to 179. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the designation of homes and places of business having telephones.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, follows the Directory of Householders.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Charlotte.

The Charlotte Directory Library

Through the courtesy of the publishers of the Charlotte City Directory, a Directory Library is maintained in the offices of the Charlotte Chamber of Commerce, for free reference by the general public. This is one of 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

LOCATION IN RELATION TO LARGER CITIES

Charlotte, the county seat of Mecklenburg County, is located in the south central section of North Carolina. It is 600 miles southwest of New York City, 400 miles southwest of Washington, D. C., 600 miles southeast of Chicago and 250 miles northeast of Atlanta, Ga. It is the center of the nationally-known "Piedmont Carolinas."

Looking North on South Tryon Street

POPULATION

The population within the city limits of Charlotte in 1940 was 100,899. It is now estimated to be about 120,000. Within a 50-mile radius, there are 600,000 people—69% of whom are white and 99% are native-born.

ELEVATION

Charlotte has an elevation of 779 feet above sea level. The city is neither flat nor hilly, but has a gradual rolling contour. The Piedmont section, of which Charlotte is the center, is a nearly uniform plateau between the Appalachian Mountains and the coastal plain.

TRANSPORTATION

There are 4,500 miles of hard-surfaced roads within 150 miles of Charlotte, which makes practically all important sub-distribution points in the two Carolinas accessible by motor truck overnight. Motor bus lines maintain regular schedules to Greensboro, Raleigh, Asheville, Winston-Salem, Salisbury, Statesville, Columbia, Greenville, Spartanburg, Rock Hill and Chester, connecting at those cities for more distant points.

The Charlotte motor bus system, embracing 121 miles, reaches into every residential and industrial section of the city. Convenient schedules are maintained on all lines, and the service is complete in every detail. Charlotte is the home of the Duke Power Co., supplying the Piedmont Carolinas with light, power and transportation.

There are four railroads entering Charlotte, one of which has two branch lines. These are:

Southern Railway (main line New York-New Orleans)
Statesville Branch
Columbia Division.

Seaboard Air Line Railway.

Norfolk-Southern Railway.

Piedmont & Northern Railway (electric).

Fifty-four passenger trains arrive and depart from Charlotte daily, many trains handling freight. Numerous package cars leave Charlotte daily to serve the manufacturers and distributors now located here.

Charlotte is served by the Eastern, Piedmont, Capital and Delta Air Lines, which operate 42 planes into Douglas Municipal Airport, carrying passengers, express and mail.

Charlotte is the center for motor transportation in the Southeast—over 90 different carrier lines either have headquarters or branch offices, or operate in and out of the city.

WATER

The city recently completed a new water plant at a cost of over $1,000,000. The intake is now being carried in a 30-inch and 24-inch pipe, with over 10,000,000 gallons of raw water per day being taken to the new plant. Of this quantity the City of Charlotte consumes 8,500,000 gallons daily. The source of supply is the Catawba River, nine miles from the center of the city, which has a flow of approximately 7,000,000,000 gallons daily. The lowest mean monthly flow on record (November, 1925, 1052 CFS) was 680,000,000 gallons daily. Plant capacity, 17,000,000 gallons.

LABOR

Many available workmen in North Carolina are still engaged in agriculture, a labor reserve adequate to meet any industrial demand for years to come. Since direct immigration from Europe into the South stopped in 1760, the population is 99.3% native-born of old American stock, 69% of which is white.

The labor in Charlotte is of a better type than in the older industrialized sections of the North and East; it is intelligent, loyal, easily trained, 100% American, and inclined to be contented with decent treatment and fair wages. This labor is constantly streaming into Charlotte from the farms and villages, and apparently there is an unlimited supply. The city has trained them to make full-fashioned hosiery, automobile tires and textile machinery, and to

perform many operations requiring a high degree of skill. There are in successful operation at the present time, 40 textile mills in Charlotte, but there are altogether 334 different factories, small and large, making over 200 different types of products, including silk fabrics, full-fashioned hosiery and other textile specialties.

CHARLOTTE DISTRIBUTING CENTER

Charlotte is the shopping and distributing center for a radius of 150 miles. Because of this, a great proportion of the people in Charlotte are employed in banks, department stores, offices, and various distributing enterprises, and are of a slightly higher grade of intelligence than is found in most of the strictly manufacturing towns. This means that in each family there are young people growing up who are above the mill type of intelligence, but are nevertheless, available for employment; and to these people the better paid, more attractive work of the specialty mills appeals. This exceedingly high-grade labor is hard to find in any city much smaller than Charlotte. There is still an abundance of it available here, of both sexes. In addition to this, there

are the opportunities for social and recreational activities, which a city of the type of Charlotte offers, not found in smaller places.

Wage-earners of the better class require social contacts such as Charlotte offers, and which are not found in smaller towns, either in the North or the South. They require opportunities for entertainment, movies, parks, golf courses, good roads for automobile driving, etc. Charlotte offers facilities for this type of diversion which are unexcelled outside of the large metropolitan centers.

CLIMATE

While the matter of climate is not always a major consideration in manufacturing, it will probably be of interest that Charlotte has a very uniform climate. The average temperature for January, for the past 44 years, was 41 degrees F., and for July, 78 degrees; the mean average yearly temperature was 60.2 degrees F. Average rainfall over similar period was 46.86 inches, and the mean relative humidity at 8:00 A. M. was 78.5% and at 8:00 P. M., 62.0%. This means, in a few words, that the cost of maintaining an even temperature in buildings is much lower here than in the North.

MECKLENBURG COUNTY

Gained 23,855 Population, 1930-1940

Mecklenburg County, according to the 1940 U. S. Census, had a population of 151,826, an increase of 23,855 over 1930. The increase was approximately 18% for the ten-year period.

The population of Charlotte was established as 100,899 by the 1940 Census, an increase of 18,224 over 1930. This means that all but 5,631 of the increase in the county's population was within the city limits of Charlotte.

The Census revealed that Mecklenburg County had 3,136 farms.

The population of Charlotte Township, which includes the city and a fringe of land all the way around the city limits, was set at 113,163. Nearly all the county's population gain was in Charlotte Township. Estimated, 1947, 120,000.

AS A MANUFACTURING CENTER, CHARLOTTE OFFERS:

1. Low power rates for manufacturing purposes.
2. Close proximity to the sources of all materials for finished products.
3. Cotton, cotton yarns, cottonseed, cotton oil, tobacco, peanuts, kaolin, wood pulp, lumber, etc.
4. Logical location for a manufacturer of commodities for export through the ports of Norfolk, Wilmington, Charleston and Savannah.
5. A very desirable type of high-class labor available to manufacturers.
6. Mild climate conditions throughout the year. There are nine months of exceptional open-season weather.
7. Adequate transfer facilities of four railroads, with daily terminal facilities of 5,200 carloads.
8. Desirable living conditions and unusual residential developments.

The quality of Charlotte's water is excellent. The supply is abundant, with a modern filter plant, completed at a cost of $1,000,000 or more, a daily capacity of 16,000,000 gallons and an average daily pumpage of 8,500,000 gallons. Electricity, ample and at low rates, probably has been the greatest factor in the industrial and commercial development of Charlotte.

Charlotte's rapid growth as a manufacturing and business center has developed financial institutions commensurate with the demands of the rapidly-growing city and section which they serve.

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight

Out of Sight - Out of Mind - Out of Business

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight
